

Corruption can be De -Rooted.

Corruption is a great evil that has spread its poison in almost every single country in the world. As expected, developing countries suffer more from corruption than developed countries. The governments of all these countries are corrupt in almost everything, ranging from policy issues to infrastructure and developmental issues.

Corruption also creates a bad image of the country in other countries. Rich countries often give aid in the form of money and goods to the poor countries.

Corruption can be de rooted with the help to following methods.

1. Give better salary in Govt. jobs:

Many employees in government positions receive low salary like clerks, office staff etc. Hence they expect to make money by bribery. For this they try to delay the work for so long that the client is fed up and opts for bribery for progress in the work. So low salary is one of the reasons for corruption. To curb this their salaries should be raised periodically.

2. Increase the number of workers:

In many offices of the government sector, the work load has gone up drastically but the recruitment of vacancies has declined this gives an option for delaying the work by officials and expect monetary or other benefits for faster completion.

3. Law to dismiss from service if found to be involved in corruption.

This seems a better option. For instance if you see cases where anti-corruption bureau rides an officers home and finds disproportionate assets, the officer is suspended from employment and taken for judicial trials. But after couple of years you will find them in employment at same or even better positions. So this creates no fear among the officials against corruption.

4. Keep transactions online and provide bill for every purchase:

Many of them do not pay taxes and escape this involves corruption. Making payments online through bank accounts and provision of bills for every transaction involving money. This is a better corruption watch.

5. Camera in most Govt. offices:

In every ATM there are camera to keep a watch on the public taking their money. Then why not government offices have cameras to have a watch on the employ performance. Even there are many employ's who openly take bribe in presence of common men. This public bribery is due to confidence that public wants their work more than the amount they are paying to them as bribes.

6. Speed up the work process in Govt. institutes:

Most corporate offices are in full fledged running by 8-9 am. But the government offices start by 10 to 11 am and wind up by 3.30 to 4 pm with a lunch break of one & half hour in between. This indicates how much of commitment lies in the work and how fast the work goes on. If there are mistakes in the work or delay in the work, civilians have to run behind those workers to rectify or complete the work.

7. Make Media responsible and fix laws to be so:

There are many major scams and corruption events involving media. Though the media is well aware of the corruption happening they stay silent due to their support for some political parties or else their owners get some monetary benefits from the rulers. Even there are many reporters who though come across some.
